"EXPLORING THE ROLE OF AI IN ACADEMIC RESEARCH" 24TH & 25TH SEPTEMBER, 2024

ABOUT CONFERENCE

Unlike traditional methods, AI can identify complex patterns, predict outcomes, and even discover new knowledge that might have otherwise remained hidden. From facilitating comprehensive literature reviews and identifying hidden research gaps to analysing massive datasets and visually presenting complex information, AI is empowering researchers to tackle tasks once thought insurmountable. Using AI in research and development provides insight into the future of innovation.
