

SGRR UNIVERSITY COLLEGE OF NURSING
PATEL NAGAR, DEHRADUN.
COMPUTER LAB

INTRODUCTION

Nursing has always been a very technically advanced field. Computers are an integral part of hospital and private practice culture, and thus of the nursing profession.

Computer systems are used for Patient Administration, Electronic Medical Records, and Inter office communication and in other applications.

AIMS

To improve teaching-educational and scientific process through interactive teaching and exercises, by releasing presentations over video-projectors.

- To provide assistance to students that will enhance their chances of succeeding in technology based classroom assignments.
- To provide access to equipment that will support the needs of instruction where we celebrate life-long learning.
- To develop basic understanding of uses of computer and its Applications in nursing.

OBJECTIVES

- To assist and enhance the possibilities of nursing students in succeeding with their assignments.
- To carry out deeper research for their projects.

- To motivate *the students to define their career goals, entrepreneurship and job opportunities.*
- To identify and define various concepts used in computer.
- Identify application of computer in nursing.
- Identify features of computer aided teaching and testing.
- Demonstrate use of internet and email.
- Describe the use of hospital management system.
