

SGRR UNIVERSITY COLLEGE OF NURSING
PATEL NAGAR, DEHRADUN.
COMMUNITY HEALTH NURSING DEPARTMENT

COMMUNITY HEALTH NURSING

Community health nursing is a way of improving the status of all community with the help of nursing skills and evidence based practices

COMMUNITY HEALTH NURSING LAB

Community health nursing lab is an area designed to provide practical exposure to nursing students in an eco-friendly and scientifically based manner.

AIMS

Students can deliver a comprehensive care to all community in both rural and urban with an eco-friendly and need based manner

OBJECTIVES

- ❖ To educate the students to deliver an eco-friendly manner care
- ❖ To teach the students to understand all individual, family and community needs
- ❖ To mould the students to create purely professional relationship with community
- ❖ To encourage the students to conduct need-based programmes in the field
- ❖ To motivate the students to involve in community participation
- ❖ To develop Students clinical skills.
- ❖ To stimulate the students for providing planned and incidental health teachings to individual, families, and community.
