

# **SHRI GURU RAM RAI UNIVERSITY**

**[Estd. by Govt. of Uttarakhand, vide Shri Guru Ram Rai University  
Act no. 03 of 2017 & recognized by UGC u/s (2f) of UGC Act 1956]**

**SYLLABUS FOR  
Master of Arts (Economics)  
Department of Economics  
School of Humanities and Social Science**

**(W.E.F 2021-2022)**

---

---

## Programme Outcome: Students will be able to

<b>PO 1.</b>	<b>Disciplinary knowledge:</b> The students acquire knowledge and understanding in the field of social sciences, literature and humanities through facts, theories and fundamental concepts. It will enhance the global as well as regional knowledge.
<b>PO 2.</b>	<b>Critical Thinking and Problem Solving:</b> The students will develop critical and analytical skills to identify and analyse social issues and problems and suggest improvements for better result. It provides a multi-disciplinary and inter-disciplinary perspective to the students and enables them to analyse and critique the existing policies and explore innovative solutions.
<b>PO 3</b>	<b>Investigations:</b> The students will analyse and evaluate data on the basis of empirical evidence and critically evaluate practices, policies and theories following scientific approach of Investigations
<b>PO4.</b>	<b>Team Learning:</b> The students will learn independent individual learning and collaborative team learning through practical sessions that provide opportunities to interact with industry and gain hands-on experience.
<b>PO5.</b>	<b>Communication Skills:</b> The students will develop various communication and presentation skills which will help in expressing ideas and views clearly and effectively with the community and society at large.
<b>PO6.</b>	<b>Professionalism:</b> The students will be confident and equipped with the skills that will promote self-management, employability, entrepreneurship, professional integrity and leadership needed in a global workplace.
<b>PO7.</b>	<b>Ethics:</b> The students will learn values and ethics and an ability to apply these with a sense of responsibility within the workplace and community which will transform them as responsible citizens.
<b>PO8.</b>	<b>Environment and Sustainable Development:</b> The students will be able to impart solutions in societal and environmental contexts, and demonstrate the knowledge and need for sustainable development.
<b>PO9.</b>	<b>Lifelong Learning:</b> The students will have the ability to develop confidence for self-education and ability for lifelong learning. The program will empower to appear for various competitive examinations and to work independently adapting to changing trades, technology and demands of work place through knowledge and skill development.
<b>PO10:</b>	<b>Projects and Management:</b> The students will develop the ability to formulate problems and projects and to plan a process for solution taking advantage of diverse technical knowledge and skills. They can use the modern tools, techniques, skills and management principles to manage projects in multidisciplinary environments.

<b>PO11:</b>	<b>Engineer and Society:</b> Apply reasoning and contextual knowledge to assess societal and cultural issues and the consequent responsibilities towards human, society and social institutions.
<b>PO12:</b>	<b>Design/Development of solutions:</b> Able to come up with solutions for complex social problems and design social components or processes that meet the specified needs with appropriate considerations for the public health, safety, cultural, societal and environment considerations.

### **Program Specific Outcome (PSOs)**

<b>PSO 1</b>	Explain the economic theories, and their application in real world and contemporary issues related to regional, national and international levels
<b>PSO2</b>	Understand the crucial economic policies and their role in pursuing the objectives of demography, growth development and stability, labour economics and many other branches of economics.
<b>PSO3</b>	Explicate gender economics; monetary economics; economics of human development; public finance, micro economics, macro economics; Quantitative, mathematical, and statistical tools for construction of economic model.
<b>PSO4</b>	Identify the concept of environmental economics, development planning, labour economics, history of economic thought, demography and agricultural economics.

### **Eligibility for admission:**

Any candidate who has passed the Graduation Examination from any recognized university or equivalent University with Economics subject or any student from science background not less than 40 % marks in aggregate, is eligible for admission. However, SC/ST, OBC and other eligible communities shall be given relaxation as per University rules.

**Duration of the Programme: 2 Years**  
**STUDY & EVALUATION SCHEME**  
**Master of Arts**

**First Semester**

S. No.	Course Category	Course Code	Course Name	Periods				Evaluation scheme		Subject Total
				L	T	P	C	Sessional (Internal)	External (ESE)

**Course Objectives:**

**The objectives of this course are:**

1. To understand the theories of consumer behavior.
2. To Different developments in demand theorem.
3. To explain the Law of variable proportions and Returns-to-scale.
4. To analysis the Different approaches of the Firm theory.

## Course Contents:

### Unit-1:

Theories of consumer behavior: Indifference curve approach; Price, Income and Substitution effects (Hicks and Slutsky); Revealed preference theory; Applications of Indifference Curve Analysis; The Consumer's surplus (Marshall and Hicks). Elasticity (Price, cross, income) of demand.

### Unit-2:

Recent developments in demand; Neumann Morgenstern hypothesis–Markowitz hypothesis – Bandwagon effect – Veblen effect – demand and supply equilibrium; Cobweb theorem.

### Unit-3:

Law of variable proportions and Returns-to-scale; Producer's equilibrium; Production functions: Cobb-Douglas and CES functions Cost and Revenue Analysis; Cost Functions–short run and long run costs, Modern theory of Costs. Linear Programming.

### Unit-4:

Marginal Approach for Firm's equilibrium; Alternative Theories of the Firm: Managerial Theory of the Firm: Baumol's Theory of Sales Revenue Maximisation; Behavioural Theory of the Firm: Cyert and March model; Limit Pricing Principle: Contribution of Bains.

## Reference Books:

1. H.L. Ahuja (2008), Advanced Economic Theory, S.Chandpublication, New Delhi
2. Koutsoyiannis, A. (1979), Modern Microeconomics, (2<sup>nd</sup> Edition), Macmillan Press, London.
3. Kreps, David M. (1990), A Course in Microeconomic Theory, Princeton University Press, Princeton.
4. Layard, P.R.G. and A.W. Walters (1978), Microeconomic Theory, McGraw Hill, New York.
5. Sen, A. (1999), Microeconomics: Theory and Applications, Oxford University Press, New Delhi. Stigler, G. (1996), Theory of Price, (4<sup>th</sup> Edition), Prentice Hall of India, New Delhi.
6. Varian, H. (2000), Microeconomic Analysis, W.W. Norton, New York.

## Course Outcomes (Cos)

Upon successful completion of the course, student will be able to-

CO1	Define the consumer behavior theory.
CO2	Explain the Applications of Indifference Curve Analysis.
CO3	Explain the demand theory.

<b>CO4</b>	Illustrate the law of variable proportion. and cost function
<b>CO5</b>	Conclude the cost and revenue analysis.
<b>CO6</b>	Write about the Managerial approach of firm.

### **Course Objective:**

#### **The objectives of this course are:**

1. To understand the broad principles of international trade.
2. To know about the theories of the free flow of trade in goods, services and capital.
3. To explain the impact of the trade policies followed at the national and international levels as also their welfare implications for the economies.
4. To understand the economies of scale, tariff and non-tariff barriers in international trade.

### **Course Contents:**

#### **Unit 1:**

Theories of international trade: Absolute and Comparative cost advantage theory. Opportunity cost theory; Law of Reciprocal demand: Offer curve analysis.

#### **Unit 2:**

Modern theories of international trade: Heckscher-Ohlin theorem, Leontief Paradox, Factor-price equalization theorem; Kravis and Linder theories of trade, The Rybczynski theorem – concept and policy implications of immiserizing growth

#### **Unit3:**

Effects of economic growth on international trade; Measurement of Gains from Trade and their Distribution; Terms of Trade: Concepts, their uses and limitations; Hypothesis of Secular Deterioration of Terms of Trade, Terms of Trade and LDCs; Trade as an Engine of Growth

#### **Unit 4:**

Free Trade versus Protection; Tariffs, Quotas and Non-Tariffs Barriers: Economics Effects of Tariffs and Quotas on National Income, Output and Employment, Terms of Trade and Income Distribution; Impact of Non-Tariffs Barriers.

## Course Outcomes:

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Recall the international trade theories.
<b>CO2</b>	Explain modern theories of international trade
<b>CO3</b>	Explain the effects of economic growth on international trade
<b>CO4</b>	Describe the gains from trade and their distribution.
<b>CO5</b>	Conclude the terms of trade and their uses and Limitation.
<b>CO6</b>	Express the effect of tariffs and Quotas on National Income output and Employment..

### **Course Objectives:**

#### **The objectives of this course are:**

1. To orient the student concept of demography.
2. To understand the women's health facilities and women's empowerment.
3. To study the women's work participation in the different sectors.

### **Course Contents:**

#### **Unit 1:**

Demography of female population - age structure, mortality rates and sex ratio; Causes of declining sex ratios and fertility rates in India; Genders sensitization: Meaning role and its importance; Problems and Challenges for Rural and Urban Women (Indian and Uttarakhand economy)

#### **Unit 2:**

Women's access to nutrition, health facilities, education and social and community resources and their impact; Democratic decentralization (Panchayats) and women's empowerment in India; Economic, health and Educational status of women

#### **Unit 3:**

Female work participation in agriculture, non-agricultural, rural activities, informal sector, cottage and small scale industries, organised industry and services sector in Indian and Uttarakhand perspective.

#### **Unit 4:**

Social security of women; Role of voluntary organizations and self-help groups in women empowerment; Gender and Economic planning in India; Recent Government initiatives for Women Empowerment; Government policies for women empowerment in Uttarakhand; problems in implementation of various government policies for attaining women empowerment .

### **Course Objectives:**

#### **The objectives of this course are:**

1. To know about the major issues of macroeconomics and National income.
2. To understand the theory of Income and Employment.
3. To gain knowledge about the theory of consumption.
4. To make them familiar with the theory of investment and multiplier.

### **Course Contents:**

#### **Unit 1:**

Major issues and importance of Macroeconomics; Macro-economic Paradoxes, Meaning and concepts of National Income; Circular flow of income in two, three and four sector economy.

#### **Unit 2:**

Classical theory of full employment: Say's Law of Market and wage-price flexibility; Keynes Theory of Income and Employment, Macro-economic equilibrium: AS-AD model- with variable prices.

#### **Unit 3:**

Consumption functions: Concept, Psychological law of consumption; importance of consumption function; Post-Keynesian Theories of Consumption: Relative Income Theory of consumption; Life Cycle theory of consumption, Permanent Income theory of consumption.

#### **Unit 4:**

Investment functions: Marginal Efficiency of Capital, Investment multiplier, Limitations of working of Keynesian Multiplier in developing economies; Accelerator: concept and working; Interaction of multiplier and accelerator.

## Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Identify the national income estimates and social accounting.
<b>CO2</b>	Describe the theory of Income and employment in Macro Economics.
<b>CO3</b>	Apply the consumption function concept and theory.
<b>CO4</b>	Illustrate the investment functions and multiplier
<b>CO5</b>	Evaluate the macroeconomic equilibrium AS-AD model.
<b>CO6</b>	Write the interaction of multiplier and accelerator.

### **Course Objectives:**

#### **The objectives of this course are:**

1. To understand the concept of money in different types of Economy.
2. To know about the High powered money and Multiplier.
3. To explain the theories of demand for money.
4. To study the credit creation and monetary policy.

### **Course Contents:**

#### **Unit 1:**

Nature and Functions of Money; Classification of money; Role of money in Economic development, Role of money in capitalist and socialist economies; Meaning and types of monetary standards.

#### **Unit 2:**

Supply of Money: Measures of Money Supply, High powered money and money multiplier; factors affecting money supply, monetary transmission mechanism.

#### **Unit 3:**

Demand for Money: Theories of demand for money – Classical approach to demand for money–Quantity theory approach, Fisher’ equation, Cambridge equinity theory, Keynes’ Liquidity Preference approach; Patinkin, Baumol and Tobin approaches.

#### **Unit 4:**

Credit creation by Commercial Banks and Credit creation Multiplier; Central Bank: Functions and Role; Monetary Policy: Objectives, tools and effectiveness

#### **Reference Books:**

L - Lecture T – Tutorial P – Practical C – Credit

### **Course Objectives:**

#### **The objectives of this course are:**

1. Economic Planning in India.
2. Economic Policies like Gandhian approach.
3. Economic problems dealing with food security.

### **Course Contents:**

#### **Unit 1:**

Economic Planning in India: Planning process in India, Planning approaches in different five year plans, Role of NDC and Planning Commission, NITI Aayog and three years action plan

#### **Unit 2:**

Development of Indian Economic Policies: Gandhian approach, Nehruvian approach, LPG, PURA.

#### **Unit 3:**

Recent Economic reforms in agricultural and industrial sectors, financial markets and foreign trade

#### **Unit 4:**

Policies/Programs dealing with economic problems: Food security, MNREGA, SGRY, VDIS, Demonetization

### Reference Books:

1. Ahluwalia, I.J. and I.M.D. Little (Eds.) (1999), India's Economic Reforms and Development (Essays in honour of Manmohan Singh), Oxford University Press, New Delhi.
2. Brahmananda, P.R. and V.R. Panchmukhi (Eds.) (2001), Development Experience in the Indian Economy : Inter-State Perspectives, Bookwell, Delhi.
3. Chakravarty, S. (1987), Development Planning: The Indian Experience, Oxford University Press, New Delhi.
4. Dantwala, M.L. (1996), Dilemmas of Growth: The Indian Experience, Sage Publications, New Delhi.
5. Datt, R. (Ed.) (2001), Second Generation Economic Reforms in India, Deep & Deep Publications, New Delhi.:
6. Bardhan, P.K. (9th Edition) (1999), The Political Economy of Development in India, Oxford University Press, New Delhi.
7. Bawa, R.S. and P.S. Raikhy (Ed.) (1997), Structural Changes in Indian Economy, Guru Nanak Dev University Press, Amritsar
8. Government of India, Economic Survey, (Annual), Ministry of Finance, New Delhi.
9. Jain, A.K. (1986), Economic Planning in India, Ashish Publishing House, New Delhi.
10. Jalan, B. (1992), The Indian Economy — Problems and Prospects, Viking, New Delhi.
11. Jalan, B. (1996), India's Economic Policy—Preparing for the Twenty First Century, Viking, New Delhi.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Define the Economic Planning Process in India and five years plans.
<b>CO2</b>	Describe the Indian Economic Policies.
<b>CO3</b>	Explain the different concept of demand theory.
<b>CO4</b>	Classify the different policies and programmes deal with Economic Problem
<b>CO5</b>	Illustrate the impact of MNREGA, SGRY, VDIS and Demonetization.
<b>CO6</b>	Write about the LPG and PURA.

### Course Objectives:

#### The objectives of this course are

1. Understand the distinguish between perfect competition, Monopoly and Monopolistic competition.
2. Make them learn the Pricing and output determination in the different markets, game theory and various strategic decision making.
3. Understand the distribution and interest theory.
4. Gain knowledge about the welfare theory.

### Course Contents:

#### Unit 1:

Perfect competition– Short and long term equilibrium of the firm and industry, Dynamic changes and industry equilibrium. Monopoly – short run and long run equilibrium; Price discrimination; Monopolistic competition - Chamberlin’s approach to equilibrium of the firm.

#### Unit 2:

Pricing and output determination: Duopoly (Cournot model) and Oligopoly (Kinked demand curve model, Cartels and Price leadership); Theory of Games (Zero-sum game, Prisoner’s Dilemma).

### **Unit 3:**

Micro Theories of Distribution: Rent (Ricardian and Modern theories), Wages (Marginal Productivity and Modern Theories), Interest (Neo-classical, Liquidity Preference Theories, IS-LM model).

### **Unit 4:**

Welfare Economics: Concept of social welfare, Pareto optimally criterion and efficiency conditions, Kaldor-Hicks Criterion: Compensation principle, Bergson- Samuelson Social welfare function.

### **Reference Books:**

1. H.L. Ahuja (2008), Advanced Economic Theory, S.Chand publication, New Delhi.
2. Koutsoyiannis, A. (1979), Modern Microeconomics, (2nd Edition), Macmillan Press, London.

4. Bain, J. (1958), Barriers to New Competition, Harvard University Press, Harvard. Broadway.
5. R.W. and N. Bruce (1984), Welfare Economics, Basil Blackwell, London Cambridge.
6. Graff, J. De V. (1957), Theoretical Welfare Economics, Cambridge University Press,
7. H.L. Ahuja (2008), Advanced Economic Theory, S.Chand publication, New Delhi.
8. Koutsoyiannis, A. (1979), Modern Microeconomics, (2nd Edition), Macmillan Press, London.
9. Kreps, David M. (1990), A Course in Microeconomic Theory, Princeton University Press, Princeton.
10. Layard, P.R.G. and A.W. Walters (1978), Microeconomic Theory, McGraw Hill, New York .
11. Sen, A. (1999), Microeconomics: Theory and Applications, Oxford University Press, New Delhi.
12. Stigler, G. (1996), Theory of Price, (4th Edition), Prentice Hall of India, New Delhi.
13. Varian, H. (2000), Microeconomic Analysis, W.W. Norton, New York

## Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Define the Theory of game, Different markets and welfare economics.
<b>CO2</b>	Describe the Pricing and output determination in Duopoly and Oligopoly
<b>CO3</b>	Apply the knowledge of the different aspects of markets.
<b>CO4</b>	Compare the different model their pricing and output determination.
<b>CO5</b>	Conclude the role of distribution and interest theories in economy.
<b>CO6</b>	Write about welfare economics and its application in Indian economic policies.

### **Course Objectives:**

#### **The objectives of this course are**

1. Broad principles of international trade and balance of payment.
2. Theories to facilitate the Foreign Exchange.
3. International Organizations on the Economy.
4. The EXIM Policy.

### **Course contents:**

#### **Unit 1:**

Balance of Trade and Balance of Payments-Meaning, Structure and Components Balance of Payments Disequilibrium. Policies for Internal and External Balance-Fiscal and Monetary Policy under Fixed and Floating Exchange Rates.

#### **Unit 2:**

Functions of Foreign Exchange Market- Transfer of Purchasing Power, Provision of Hedging Facilities; Transactions in the Foreign Exchange Market- Spot, Forward and Exchanges, Futures, Arbitrage Determination of Rate of Exchange- Purchasing Power Parity Theory Balance of Payments Theory; Fixed and Flexible Exchange Rates; Current and Capital Account Convertibility.

#### **Unit 3:**

International Economic Organizations: International Monetary Fund; World Bank; International Development Association; International Finance Corporation Asian Development Bank.

#### **Unit 4:**

Recent EXIM policy; Role of MNCs in India. WTO provisions: TRIPS, TRIMS, GATS and their impact on the different sectors of Indian Economy.

#### **Reference Books:**

12. Soderston, Bo (1991), International Economics, The Macmillan Press Ltd., London.
13. Verma, M.L. (1995), International Trade, Vikas Publishing House Pvt. Ltd., Delhi.

### Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Familiar with the concepts of balance of trade and balance of payments.
<b>CO2</b>	Describe Foreign Exchange Market.
<b>CO3</b>	Explain the theory of balance of Payment.
<b>CO4</b>	Determine the rate of exchange, problems of the rate of exchange
<b>CO5</b>	Evaluate the International Economic Organizations
<b>CO6</b>	Write the role of MNCs in India

### **Course Objectives:**

#### **The objectives of this course are**

1. To know about the principal results of single and several variable calculations, including calculation of derivatives, partial derivatives of both explicit and implicit functions and solving optimization problems.
2. To understand the statistical methods for research analysis and interpretation.
3. To study about the, critically evaluate and synthesize the substantive theories for creating models for understanding economic behavior. 4.To know about the central tendency and coefficient of correlation.

### **Course Contents**

#### **Unit 1:**

Statistics: Meaning, nature, subject-matter and limitations; Role of Statistics in economic analysis; Choice of an appropriate measure of central tendency, dispersion and skewness.

#### **Unit 2:**

Correlation: Meaning, Methods for calculating coefficient of simple correlation; Regression: Analysis in case of one explanatory variable only; Association of attributes

#### **Unit 3:**

Interpolation and Extrapolation: Binomial, Newton and Lagrange methods; Time Series: Components, Moving average and Least squares methods for calculation of secular trend. Index Numbers: Fisher method, Time Reversal and Factor Reversal Tests.

#### Unit 4:

Role of Mathematics in Economic theory and its limitations; Differentiation: Meaning and Rules, Problem of Maxima & Minimization and multivariate functions; Matrix: Types, Simple operations on matrices; Determinants: Basic properties of determinants, Solution of simultaneous equations with determinant method.

#### Reference Books:

1. Allen, R.G.D. (1974), Mathematical Analysis for Economists, Macmillan Press and ELBS, London.
2. Chiang, A.C. (1986), Fundamental Methods of Mathematical Economics, McGraw Hill, New York.
3. Gupta, S.C. (1993), Fundamentals of Applied Statistics, S. Chand & Sons, New Delhi.
4. Handry, A.T. (1999), Operations Research, Prentice Hall of India, New Delhi.
5. Monga, G.S. (1972), Mathematics and Statistics for Economists, Vikas Publishing House, New Delhi.
6. Spiegel, M.R. (1992), Theory and Problems of Statistics, McGraw Hill Book Co., London.
7. Taha, H.A. (1997), Operations Research: An Introduction (6th Edition), Prentice Hall of India Pvt. Ltd., New Delhi.
8. Yamane, Taro (1975), Mathematics for Economists, Prentice Hall of India, New Delhi.

#### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Identify the average value of any variable and to know the average deviation from the mean value of given variable
<b>CO2</b>	Describe the testing of hypothesis to find the validity and the representative character of a particular sample derived from a given population.
<b>CO3</b>	Explain the average movement in the values of a given group of variables over a given time period.
<b>CO4</b>	Illustrate the role of Statistics in economic analysis
<b>CO5</b>	Distinguish the role of Mathematics in Economic theory and its limitations
<b>CO6</b>	Express the simultaneous equations with determinant method

### **Course Objectives:**

#### **The objectives of this course are**

1. To understand the classical and Keynesian policies for growth and stabilization.
2. To make them familiar with inflation and unemployment problems.
3. To know about the IS-LM model, Fiscal and Monetary policy.
4. To understand the Business cycles theory.

### **Course Contents:**

#### **Unit 1:**

Classical and Keynesian Macro Economics; Post Keynesian development in Macro Economics: Monetarism; Supply-side Economics; New Classical Economics: The new classical macroeconomic approach; Policy implications of new classical approach – Rational expectations theory.

#### **Unit 2:**

Theory of Inflation: Classical, Keynesian and Monetarist approaches to inflation. Philips curve analysis – Short run and long run Philips curve; the nature rate of unemployment hypothesis; Tobin's modified Philips curve and policies to control inflation.

#### **Unit 3:**

IS-LM model: The interaction of Real and Monetary sectors of the economy – Keynesian version of the IS-LM model – Neo-classical version of the IS-LM model;

Shri Guru Ram Rai University, Dehradun  
Master of Arts  
Department of Economics

Fiscal and Monetary Policy analysis in an IS-LM model; Short run and long run  
Aggregate Supply curve analysis

**Unit 4:**

Business cycles: Meaning, phases and features; Theories of business cycles: Hawtrey theory, Over-investment theory, Keynes theory, Samuelson model and Hick's theory, Control of business cycles, relative effectiveness of Monetary and fiscal policies Fiscal policy and crowding out.

**Reference Books:**

8. Shapiro, E. (1996), *Macroeconomic Analysis*, Galgotia Publications, New Delhi.

### Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Identify the Classical and Keynesian Macro Economics
<b>CO2</b>	Understand Philips curve in short run and long run
<b>CO3</b>	Explain the theory of inflation.
<b>CO4</b>	Illustrate the causes and effects of inflation in economy.
<b>CO5</b>	Conclude the IS-LM model and interaction of Real and Monetary sectors of the economy.
<b>CO6</b>	Express the business cycle theory with current aspects

### **Course Objectives:**

#### **The objectives of this course are**

1. To interpret the Human development and sustainable development.
2. To understand the demographic trends and issues.
3. To explain the Education trends and strategies.
4. To understand the Health and Development strategies

### **Course Contents:**

#### **Unit 1:**

Human Development: Concepts, Millennium Development Goals and human development, Human Development Index, Multidimensional Poverty Index, and Gender related Development Indices. Sustainable development: Goals and strategies

#### **Unit 2:**

Human development indicators, , Human development in Indian States; Factors responsible for low human development, Demographic trends and issues in context of human development

#### **Unit 3:**

Education and human development: Educational profile of India; Relationship between education and development, Trends and pattern of education financing in the Five - Year Plans, Sources; Strategies for improving education and employment.

Shri Guru Ram Rai University, Dehradun  
Master of Arts  
Department of Economics

#### **Unit 4:**

Health and human Development: Population, health and development; National Family Health Survey (NFHS-4), 2018-19: Major findings-key indicators, Reproductive health and health care in India, National Rural Health Mission.

### **Course Objectives:**

#### **The objectives of this course are**

1. To learn about the research meaning and sampling method.
2. To understand the method of collecting data.
3. To explain the statistical method and Hypothesis.
4. To understand the Data processing and report writing.

### **Course Contents:**

#### **Unit 1:**

Research: Meaning, Objectives, Importance and Types; Research process; Research Problem, Research Design and Sampling Design; Sampling Methods.

#### **Unit 2:**

Methods for collection of Primary Data; Sources of Secondary Data; Drafting of Questionnaires and Schedules; Measurement and Scaling.

#### **Unit 3:**

Hypothesis: Meaning, Formulation and Testing; Z, t, F and Chi-square tests.

#### **Unit 4:**

Data Processing, Interpretation and Report writing, Basic use of computers in Research.

Shri Guru Ram Rai University, Dehradun  
Master of Arts  
Department of Economics

### Reference Books:

5. Statistical Methods, D.R. S.P. Gupta, Sultan Chand & Sons, New Delhi
6. Statistics for Management, Levin and Rubin, Asian Publishing House, New Delhi.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Define the appropriate research designs in carrying out research.
<b>CO2</b>	Describe systematic collection of data.
<b>CO3</b>	Demonstrate knowledge about scientific inquiry in social science research.
<b>CO4</b>	Illustrate data using different methods and analyze them for inference.
<b>CO5</b>	Decide the appropriate use of computer for research work.
<b>CO6</b>	Plan Hypothesis formulation and testing using tools like z, f, chi-square and t test

### **Course Objectives:**

#### **The objectives of this course are**

1. To understand the meaning and different theories of demography.
2. To know about the different methodology of demography.
3. To make them familiar with the concept of migration and socioeconomic consequences of migration.
4. To understand the linkage between population, economy and environment.

### **Course Contents:**

#### **Unit 1:**

Demography: Meaning and Scope of the study; Theories of population: Malthusian theory, Optimum theory, Theory of demographic transition.

#### **Unit 2:**

Methodology of Demographic Research: Vital Statistics, Gross reproduction rate and net reproduction, Measures of Mortality, Concept and Use of Life Table, Total fertility rate; Factors affecting fertility.

#### **Unit 3:**

Migration: International and Internal Migration, Economic and Social Consequences of Migration, Factors affecting migration; Urbanization: Growth and distribution of rural- urban population.

#### **Unit 4:**

Population Growth and Economic Development: Population, economy and environment linkages, Population, health, nutrition, productivity nexus; Control of Population, Population and human development issues.

### **Course Objectives:**

#### **The objectives of this course are**

1. To know the meaning, concept and dimensions of economic development.
2. To study the different theories of economic development.
3. To understand the Different Growth Models.
4. To again knowledge about the sectoral aspects of development.

### **Course Contents:**

#### **Unit 1:**

Economic Growth and Development: Meaning, Concept and dimensions; Determinants of economic growth; Obstacles in development. Measuring Development: Income Measures, Basic Needs Approach, PQLI, HDI and Capabilities Approach; Goulet's core values of development **Unit**

#### **Unit 2:**

Theories of Development: Contributions of Adam Smith, Ricardo, Karl Marx and Schumpeter, Rostow's Theory of Stage of Economic Growth, Nurkse's theory

#### **Unit 3:**

Growth Models Harrod and Domar: Instability of equilibrium; Neo Classical Growth Models: Solow and Meade; Growth Models of Joan Robinson, Kaldor and Pasinetti.

#### **Unit 4:**

Sectoral Aspects of development: Role of agriculture, industry and foreign trade in economic development; Role of Monetary, Fiscal and Price policies in economic development. Strategies for development: Balanced versus unbalanced growth and Capital- intensive versus Labour-intensives strategies

### **Course Objectives:**

#### **The objectives of this course are**

1. To understand the concept of Agricultural Economics and its role in Economic development.
2. To make them familiar with the growth of agriculture under plans and the land reforms.
3. To study the achievements, failure of green revolution and use of technology for sustainable agriculture.
4. To analyse the Problems and solutions of the food security system in India.

### **Course contents:**

#### **Unit 1:**

Agricultural Economics: Nature and Scope; Role of Agriculture in Economic Development; Problems of transforming traditional agricultural; Organic farming: status & Future scope.

#### **Unit 2:**

Agriculture Growth under the Plans: Overall trends and Inter-regional Variations; Land Reforms: Measures and their progress.

#### **Unit 3:**

Green Revolution: Achievements and failures; Agriculture Development and Technological Progress: Indigenous and Bio-Technological Practices for Sustainable Agriculture.

#### **Unit 4:**

Food Security in India: Problems and solutions, Public Distribution system in India.

### **Course Objectives:**

#### **The objectives of this course are**

1. To understand the concept and different theories of regional development and planning
2. To explain the economic development and regional disparities
3. To know the salient features of Uttarakhand economy.
4. To learn about the demography and Panchayati System of Uttarakhand

### **Course Contents:**

#### **Unit 1:**

Regional Economics: Concept, definition, scope and importance; Theories of regional development and planning.

#### **Unit 2:**

Economic development and regional disparities; Indicators of regional disparities, Backwardness and regional imbalances in India. Causes of Regional disparities in India. Benefits of regional economic integration.

#### **Unit 3:**

Economy of Uttarakhand: Salient features- Geographical features, Land types, Land use, Forest resources and Energy resources; Agriculture and Industrial pattern in Uttarakhand; Tourism in Uttarakhand economy.

#### **Unit 4:**

Human resource in Uttarakhand: Demographic profile, Education, Health and other infrastructural facilities, Poverty in Uttarakhand; Panchayati Raj and people participation.

### Reference Books:

1. Bal Krishan: Regional Planning
2. Dewan M.L and JagdishBahadur: Uttaranchal vision and Action programme. 3.G.P Mishra: Regional Dimensions of development
4. L. Needlemand: Regional Development.

#### **The objectives of this course are**

1. To study about the concept of rural development in India.
2. To gain knowledge about the dimensions of rural development, agrarian reforms and infrastructural development.
3. To analyze the Rural problems in India
4. To learn about the Programmes in India for welfare of rural development.

### **Course Contents:**

#### **Unit 1:**

Rural development: Nature and structure of rural sector in India, Meaning, need and basic principles of rural development.

#### **Unit 2:**

Dimensions of rural development in India: Growth of Agriculture; Agrarian reforms, Infrastructural development.

#### **Unit 3:**

Rural problems in India: Nature, magnitude, causes and remedies of Poverty, Unemployment and Indebtedness; Problems of Farm and Non-farm Rural employment; Programmes in India for welfare of rural and farm labour.

#### **Unit 4:**

Rural development programmes in India: Objectives, basic features and assessment of current programmes.

### Reference Books:

1. Datt ,Sundaram - Indian Economy , S.Chand and Company, New Delhi.
2. Desai, Vasant - Study of Rural Economics, Himalaya Publishing Company, New Delhi.
3. Gagam Kumar Singh - Administration for Rural Development Programme in India ,Abhijeet Publications, New Delhi.
4. Government of India – Evolution of Community Development Programme in India.
5. Government of India, Ministry of Finance, Economic Division Economic Survey- Various Issues. Jain P.C. – Agricultural Reforms in India.
6. Jain S.P. – Indian Rural Economics Vikas, New Delhi.
7. KanakKantiBagchi – Employment and Poverty Alleviation Programmes in India – An Appraisal (2 vols) Abhijeet Publications, New Delhi.
8. Mishra Puri – Indian Economy, Himayala Publishing House, Mumbai.
9. SanatanNayak – Irrigation and Economic Development, Abhijeet Publications, New Delhi.
10. Shakuntala Devi – Rural Credit and Agricultural Development, Scrap & Sons, New Delhi 1996.
11. Statistics on Indian Economy - Various Issue – R.B.I. (Mumbai)

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Describe the basic concepts of Rural Development.
<b>CO2</b>	Interpret the Agrarian reforms, and Infrastructural development.
<b>CO3</b>	Explain the Nature, magnitude, causes and remedies of Poverty, Unemployment and Indebtedness.
<b>CO4</b>	Classify rural development programmes in India.
<b>CO5</b>	Distinguish the problems of farm and non-farm rural employment.
<b>CO6</b>	Write the Objectives, basic features and the current programmes of rural development.

### **Course Objectives:**

#### **The objectives of this course are**

1. To know about the Econometrics relation between economics, and mathematics.
2. To understand about the meaning, cause and effects specification bias variables.
3. To gain knowledge about the Problem of Identification and Equations in a model.
4. To understand about the linear regression model.

### **Course Contents:**

#### **Unit 1:**

Econometrics: Nature and Scope; Relationship among Economics, Mathematics and Econometrics; Economic model versus Econometric model; Conceptual Analysis: Endogenous, Exogenous and Lagged Variables; Single equation versus Simultaneous Equation Models; Cross-section, Time-series and Panel data.

#### **Unit 2**

Specification bias: Meaning, causes, effects; Measurement Errors; Concepts of Dummy and Proxy variables.

#### **Unit 3:**

Problem of Identification: Rank and Order conditions. Equations in a model: Structural, Reduced and Final forms.

#### **Unit 4:**

Linear regression model: OLS method and its assumptions; Estimation of parameters through OLS in case of maximum two explanatory variables, Linearity of the Regression model, full Rank and the translog model.

9. Koutsoyiannis, A. (1977), Theory of Econometrics (2nd ed.), The Macmillan Press Ltd., London. Krishna, K.L. (Ed.) (1997), Econometric Applications in India, Oxford University Press, NewDelhi.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Define the Econometrics relation between economics, and mathematics.
<b>CO2</b>	Explain the meaning, causes and effects of specification bias variables.
<b>CO3</b>	Demonstration the Problem of Identification
<b>CO4</b>	Illustrate the linear regression model, full rank and translog.
<b>CO5</b>	Distinguish between single equation and simultaneous equations model
<b>CO6</b>	List the different variables.

### **Course Objectives:**

#### **The objectives of this course are**

1. To know about the Money and financial system in India.
2. To understand the working concept and role of Non-bank financial institution.
3. To study the Role and structure of Money and Capital markets.
4. To understand the concept of International financial system and Reforms in International monetary system for developing countries.

### **Course Contents:**

#### **Unit 1:**

Money and finance: The structure of the financial system, Functions of the financial sector, Indicators of financial development, Financial System and Economic Development.

#### **Unit 2:**

Non-bank financial institution: Definition, Types, their growth and impact on India's economic development, Measures taken to control their operations.

#### **Unit 3:**

Money and Capital markets: Role and structure, Call money market, Treasury bill market, Commercial bill market including commercial paper. Government securities market, Primary and secondary market for securities; SEBI, IRDA.

#### **Unit 4:**

International financial system: Lending operations of IMF, World Bank and its affiliates- IDA and IFC; Current issues; Reforms in International monetary system for developing countries; Growth of Regional financial institutions - Asian Development bank and its lending activities; Euro-dollar and Euro-Currency markets.

### Reference Books:

12. Robinson, R.I. and D. Wrightman (1981), Financial Markets, McGraw Hill, London

### Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Identify the structure of the financial system.
<b>CO2</b>	Describe the Non-bank financial institution Types and their impact on India's economic development.
<b>CO3</b>	Explain the financial markets (Call money market, Treasury bill market, Commercial bill market including commercial paper).
<b>CO4</b>	Classify the functions of financial intermediation and financial system.
<b>CO5</b>	Evaluate the functioning of various international financial agencies
<b>CO6</b>	Express the idea about the Euro currency market and Euro Dollar market

### **Course Objectives:**

#### **The objectives of this course are**

1. To study the computer system and data processing.
2. To know about the statistical techniques and methods.
3. To explain the IT application.

### **Course Contents:**

#### **Unit 1:**

Introduction to Computer System and Data Processing Operating system – Input-output - Computer networking and resource sharing, hardware, software and firmware. Concept of data, record and file – Types of data and data structures, data analysis - Data storage and retrieval – Database: concepts and operation on database.

#### **Unit 2:**

Statistical Processing: Techniques and Methods Series, groups, tables, graphs and objects – Time and frequency series – Regression methods and techniques – Regression analysis.

#### **Unit 3:**

IT Application to Finance Online banking – Electronic trading – Data sharing and decimation – Electronic transaction - Document delivery – Authentication and validation transaction processing. IT Application to Commerce Electronic trading and marketing – On line shopping and malls - Document and transaction security and digital signature.

## Reference Books:

4. Intrilligator, M. D., Econometric Models, Techniques and Applications, Prentice Hall, Englewood Cliffs, N J, 1978. 5. Sinha, P. K., Computer Fundamentals, BPB Publications, New Delhi, 1992.

## Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Inculcate the knowledge of word processing to produce professional- looking documents.
<b>CO2</b>	Understand Statistical Processing Techniques and Methods Series.
<b>CO3</b>	Demonstrate the usage of computers and how computers are essential components in learning, business and society.
<b>CO4</b>	Analyze the IT application in financial online banking And other fields
<b>CO5</b>	Evaluate the knowledge of data and its related handling
<b>CO6</b>	Express the frequency series and regression analysis

### Course Objectives:

#### The objectives of this course are

1. Principles of Taxation.
2. Different aspects of Debt in India.
3. Different aspects of center and state budget
4. Fiscal federalism and Local finance in India.

### Course Contents:

#### Unit 1:

Approaches to taxation: micro analysis of direct and indirect taxes; individual income tax, corporation income tax, sales tax including value-added tax and expenditure tax. Incidence of taxes; nature of tax burden and principles of tax incidence. Theories and measures of tax incidence. Effects of taxes on work efforts, savings, investment, and growth. Trade-off between equity and efficiency. Taxable capacity.

#### Unit 2:

Trends in public expenditure: Principle of Expenditure, Central and State Governments' Debt in India: Trends, Composition, Causes of Increase of debt in India, Fiscal sector reforms in India, Fiscal sector reforms in India. Recommendation of Kelkar Committee and Chelliah Committee

#### Unit-3:

Central and State government budgets: Meaning of budget, types of budget, Analysis of recent two years' budgets of India and Uttarakhand

**Unit-4:**

Fiscal federalism in India: Centre-State financial relations in India; Problems of states' resources and indebtedness; Resource transfer from Union to States: Criteria for transfer of resources, State finance, Local finance; Structure and Functioning of Finance Commission, Recommendations of recent 13<sup>th</sup> Finance Commission.

**Reference Books:**

8. Ruddar Datt and K.P.M. Sundharam (2008), Indian Economy, S.C. Chand andCompany Ltd, New Delhi.

### Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Define the direct tax or indirect taxes in taxation policy of India.
<b>CO2</b>	Understand the financial commission and the functions of the commission,
<b>CO3</b>	Explain the role and revenue for the local, state and union.
<b>CO4</b>	Illustrate the policy of debt and expenditure management
<b>CO5</b>	Conclude the financial relationship between state and central
<b>CO6</b>	Write about the central and state budget .

### **Course Objectives:**

#### **The objectives of this course are**

1. Theories of Demography transition.
2. Different sources of Demographic Data.
3. Population Policy.
4. International aspect of the population.

### **Course Contents:**

#### **Unit 1:**

Population in India: Population Growth; Trends; Composition; Occupational and Regional Distribution; Effects of Population Growth in India; Factors affecting Mortality, Fertility and Migration in India, Life expectancy in India. Define the Relationship between Population Growth and Economic Development.

#### **Unit 2:**

Sources of Demographic Data in India: Population Census in India- Nature, Methods and Problems, Salient Features of Population Census of 2021. Comparison of 2011 and 2021 census data

#### **Unit 3:**

Population Policy in India: Family Planning Programme in India, Shift in Policy Focus from Population Control to family Welfare and to women Empowerment; The new population Policy; Main features of latest population census with special reference to the state of Uttarakhand.

#### **Unit 4:**

International Aspects of Population: Unequal Distribution of population and World Resources, Population Trends in the twentieth century, Determinants of age and sex structure, Demographic effects of sex and age structure; Problems emerging from population structure in developed and under developed countries.

#### **Reference Books:**

### Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Define the population growth trends.
<b>CO2</b>	Explain the different sources of Demographic Data in India.
<b>CO3</b>	Demonstrate the Relationship between Population Growth and Economic Development.
<b>CO4</b>	Analyze the connections between population distribution and world resources in developed and Developing Countries.
<b>CO5</b>	Conclude the population policy its features and population census with special reference in the state of Uttarakhand.
<b>CO6</b>	Write the population Policy focus on population control to family welfare and to women Empowerment.

### **Course Objectives:**

#### **The objectives of this course are**

1. Relationship between environment and development
2. Different aspects of Environment
3. Policies in Environmental Protection.

### **Course Contents:**

#### **Unit 1:**

Environment and Development: Economic growth and environment; Environmental pollution: Causes and degradation of ecosystem and environment, policies and measures for controlling pollution; Intellectual Property Rights and environment, IPR and WTO.

#### **Unit 2:**

Ecology, Natural Resource and Economics: Meaning and components of Ecology, Inter-linkages between ecology and economics; Economics of natural resources (land, forest, water etc.): Economic valuation and accounting of natural resources.

#### **Unit 3:**

Environment and Sustainable Development: Concept and sustainability of economic development; Policy approach of sustainable development, Macroeconomic policies and management of sustainable development and institutions; Climate change: concept and issues. Economics of 3R- Recycle, Reduce, Reuse

#### **Unit 4:**

Water Management: definition, importance, sustainability, development and water conservation method water , why is water management important.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Identify the environmental awareness, the society will be benefited by utilizing more renewable resources,
<b>CO2</b>	Describe the pollution control measures, conservation of forest resources, rain water harvesting,
<b>CO3</b>	Demonstrate the development and water conservation method.
<b>CO4</b>	Analyze the ecology and ecosystem, maintaining quality environment and economic development at local, national or international level.
<b>CO5</b>	Evaluate policies for the conservation of environment
<b>CO6</b>	Write the concept of 3R

### **Course Objectives:**

#### **The objectives of this course are**

1. Various source of agriculture finance
2. Different aspects of Cooperative Movement
3. Different aspects of Agriculture Marketing
4. Role of National and International Agencies in Agriculture.

### **Course Contents:**

#### **Unit 1:**

Agriculture Finance in India: Importance, Institutional and Non-Institutional sources, Existing Credit Delivery System – Structure, problems and remedies

#### **Unit 2:**

Cooperative Movement in India: Problems and prospects of Cooperative Institutions for agriculture credit

#### **Unit 3:**

Agricultural Marketing: Market Structure and Problems, Regulated Markets, Warehousing, Taxation and Crop insurance; Agricultural Price Policy – Objectives, Instruments and Evaluation, Minimum Support Price, Fair Price shop, Fixation of Maximum Price, Maximum Price Policy.

#### **Unit 4:**

Role of National & International Agencies in Indian Agriculture: Agro-Subsidies in India; Industrial Trade in Agricultural Commodities: Commodity Agreements Issues in Liberalization of Domestic and International Trade in Agriculture, Role of NABARD, Agricultural Prices Commission and CACP; Role of WTO and MNCs in Agriculture.

7. Kahlon, A Sand Karam Singh, Managing Agricultural Finance: Theory and Practice, New Delhi: Allied Publishers Pvt. Ltd .
8. Khusro, A. M., Readings in Agricultural Development, New Delhi: Allied Publishers Pvt. Ltd.
9. Tyagi, B P Agricultural Economics and Rural Development, 1989
10. Handbook on Agriculture, 2021

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Define the agricultural theories for economic development, agriculture finance marketing..
<b>CO2</b>	Describe the risks and uncertainties in agriculture to support development of agriculture.
<b>CO3</b>	Explain the policies for pricing and marketing of agricultural products.
<b>CO4</b>	Analyze the sources of agricultural finance.
<b>CO5</b>	Evaluate the challenges facing agriculture in international trade negotiations.
<b>CO6</b>	Write the role of national and international agencies in Indian agriculture

### **Course Objectives:**

#### **The objectives of this course are**

1. Various aspects of Labour Migration
2. Cause and effect of Industrial Disputes
3. Various aspects of Labour welfare
4. Various problems of Labour

### **Course Contents:**

#### **Unit 1:**

Labour Migration: Approaches, Effects of Migration. Demand for labour relating to choice of technology. Supply of labour in relation to growth of labour force. Labour force participation rates.

#### **Unit 2:**

Industrial Disputes: Nature, Causes, Settlement and prevention mechanism in India; Industrial Act 1947 and amendments – Workers’ participation in Management, Collective bargaining.

#### **Unit 3:**

Labour Welfare: Objectives, Labour welfare activities in India; Social Security: Features, Review and appraisal of states policies with respect to social security and labour welfare in India

#### **Unit 4:**

Special problems of labour: Problems related to Child labour, Female labour, Discrimination and Gender bias in treatment of labour; Labour Market Reforms; Problems of labours in organized and unorganized sectors in Indian Economy

**Reference Books:**

1. Datt, G. (1996), Bargaining Power, Wages and Employment: An Analysis of Agricultural Labour Markets in India, Sage Publications, New Delhi.
2. Lester, R.A. (1964), Economics of Labour, (2nd Edition), Macmillan, New York.
3. Mc Connell, C.R. and S.L. Brue (1986), Contemporary Labour Economics, McGraw-Hill, New York
4. Papola, T.S., P.P. Ghosh and A.N. Sharma (Eds.) (1993), Labour, employment and Industrial Relations in India, B.R. Publishing Corporation, New Delhi.
5. Hajela, P.D. (1998), Labour Restructuring in India: A Critique of the New Economic policies, Commonwealth Publishers, New Delhi.
6. Jhabvala, R. and R.K. Subrahmanya (Eds.) (2000), The Unorganised Sector :Work Security and Social Protection, Sage Publications, New Delhi.
7. Ruddar Datt, K.P.M. Sundharam, 2008, Indian Economy, S.Chandpublication, New Delhi.
8. Venkata Ratnam, C.S. (2001), Globalization and Labour -Management Relations :Dynamics of Change, Sage Publications/Response Books, New Delhi.

### Course outcomes (COs):

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Define the causes and effect and their remedies of labour migration.
<b>CO2</b>	Understand the theoretical as well as empirical issues relating to the labour market with special reference to India.
<b>CO3</b>	Explain labour issues such as unemployment, livelihood and social security for the growing millions continues to assume .
<b>CO4</b>	Analyze the labour market, wage theories and their industrial disputes.
<b>CO5</b>	Distinguish the various issues related to child and women labour.
<b>CO6</b>	Express the labour welfare and social security of labour.

### **Course Objectives:-**

**The objectives of this course are**

1. Various thoughts of pre -classical economist
2. Various thoughts of socialist economist
3. Various thoughts of Neo-classical economist
4. Various thoughts of modern economist

### **Course Contents:**

#### **Unit 1:**

Pre-Classical Thought: Mercantilism and Physiocracy; Classicism: Adam Smith, J.B. Say, Ricardo, J.S. Mill, Malthus

#### **Unit 2:**

Socialist Thought: Sismondi, Saint-Simon; Marxian Philosophy: Dialectical Materialism and Historical Materialism. Marxian theories of value, surplus value, profit and crisis of capitalism

#### **Unit 3:**

Neo-Classical Thought: Keynesian and Post Keynesian development in Economics thought.

#### **Unit 4:**

Modern Indian Economic Thought

### Reference Books:

5. Kautilya(1951), Arthaqshastra tr. By R. Shayama Sastry, Rernond Printing Press, Mysore.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Describe the origin and development of economic ideas and their inter-relations.
<b>CO2</b>	Understand the classical, neo-classical and modern economic thoughts.
<b>CO3</b>	Explain the contributions of the Classical writers, such as Adam Smith, David Ricardo, Thomas Robert Malthus and John Stuart Mill.
<b>CO4</b>	Compare the various economic thoughts .
<b>CO5</b>	Ability to take a critical account of the reactions against Classical Economics.
<b>CO6</b>	Write the reasons for the changes in the thoughts of economics

### **Course Objectives:**

#### **The objectives of this course are**

1. Various types of Economic Planning
2. Different aspects of Cooperative Movement
3. Different aspects of Agriculture Marketing
4. Role of National and International Agencies in Agriculture.

### **Course Contents:**

#### **Unit 1:**

Economic Planning: Meaning, Need, objectives, limitations; Process of Plan formation, requisites for successful planning; Types of planning, Planning under capitalism and socialism; Planning in a mixed economy

#### **Unit 2:**

Planning and Market mechanism: Difference between planned and market economies; Role and nature of prices in planned economies, nature of planned prices State intervention versus liberalization and privatization; Development planning models; Capital-Output Ratio; Choice of techniques

#### **Unit 3:**

Project planning: Formulation and implementation of project, problems in project planning; Project evaluation: Project profitability analysis; Cost-benefit analysis; Shadow prices, optimization in planning-Linear programming, manpower planning

#### **Unit 4:**

Models in Indian Plan: From first to Ninth five year plan; factors leading to the option of different models in different five year plans; Instruments of Indian Planning: Direct controls, Indirect controls, redefining the role of the state.

## Unit-5

Economic Development of Uttarakhand: Uttarakhand Economic Development, Uttarakhand Social and Economic Development, Human Development

### Reference Books:

1. Bhagwati, J. and P. Desai (1970), India: Planning for Industrialization, Oxford University Press, London.
2. Brahmananda, P.R. and C.N. Vakil (1956), Planning for an Expanding Economy, Vora and Co., Bombay.
3. Chakravarti, S. (1987), Development Planning: The Indian Experience, Clarendon Press, Oxford.
4. Gupta, S.P. (1989), Planning and Development in India ; A Critique, Allied Publishers Private Limited, New Delhi.
5. Krishnamachari, V.T. (1962); Fundamental of Planning in India, Orient Longmans, Bombay.
6. O.S Shrivastava (1996), Economics of Growth, Development and Planning, Vikas Publishing house Pvt. Ltd, Delhi.
7. Taneja, Myer (2008), Economics of Development and Planning, Vishal publication, Delhi.
8. Todaro, M.P. (1971), Development Planning: Models and Methods, Oxford University Press, Oxford.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Explain the role of Indian and Uttarakhand government in prospects of Development.
<b>CO2</b>	Describe the major growth theories.
<b>CO3</b>	Illustrate the different economic system and determine the equilibrium point of the economy.
<b>CO4</b>	Classify the issues facing the world, international trade, and importance of foreign aid.
<b>CO5</b>	Distinguish between growth and development
<b>CO6</b>	Write the various 5 year planning and its impact on the economic development

### **Course Objectives:**

#### **The objectives of this course are**

1. To understand the role of research.
2. To study research process
3. To apply the complex techniques of selecting are search problem,

### **Course Contents:**

Dissertation will carried by the student under the supervision of Student advisor (teacher of department).

#### **Guidelines for Dissertation:**

1. Dissertation should be based on any relevant economic issue at local/regional/state/ National/international level.
2. It should be developed on the basis of either primary or secondary data.
3. Dissertation should be limited to a range of 40 to 80 pages approx. (Font type-Times New Roman or Font Size-14 font, Line spacing- 1.5 spacing).

#### **Format of Report:**

The report should be submitted in following format: Title Page, Certificate (by supervisor and student), Introduction, Literature Review, Study Methodology, Research Findings, Conclusion, suggestions or policy prescriptions, Bibliography

Note: There should not be any plagiarism in the research report.

#### **Method of Evaluation:**

Performance of student in dissertation will be evaluated.

## Course Outcome (COs)

Upon successful completion of the course, student will be able to-

<b>CO1</b>	Identify the role and importance of research in the economics.
<b>CO2</b>	Describe the issues and concepts to the search process.
<b>CO3</b>	Apply the complex techniques of selecting a search problem, selecting an appropriate research design in a dissertation report.
<b>CO4</b>	Analyze the concept and measures of sampling, data collection, data analysis in report writing.
<b>CO5</b>	Justify the importance of bibliography
<b>CO6</b>	Write dissertation on its own for future research work

### **Course Objectives:**

#### **The objectives of this course are**

1. Describe Parameters
2. Use of OLS method
3. Description of lagged variables

### **Course Contents:**

#### **Unit 1:**

Problems in estimation of parameters with OLS method: Autocorrelation–Nature, consequences, tests (DW–detest), solutions; Heteroscedasticity–Nature, consequences, tests and solutions.

#### **Unit 2:**

Problems in estimation of parameters with OLS method: Multi collinearity - Nature, consequences, tests (Frisch’s Confluence method, Farrar-Glauber method), Solutions – Method of Restricted Least Squares, Method of Pooling Cross-section and Time-series data.

#### **Unit 3:**

Problems of Lagged variables: Role of time-lags in economics; Estimation of Distributed Lag Models – Koyck model and its rationalization; Almon approach.

#### **Unit 4:**

Hypothesis tests and model Selection, Introduction, hypothesis testing methodology.

### Course outcomes (COs):

**Upon successful completion of the course, student will be able to-**

<b>CO1</b>	Define the Concepts of various types of error in variables
<b>CO2</b>	understand the presence of Heteroscedasticity and Multicollinearity
<b>CO3</b>	Explain the concepts to standards errors in variables
<b>CO4</b>	Use of regression model for empirical data and try to compare the theoretical validity with empirical findings
<b>CO5</b>	Evaluate the Hypothesis tests and model Selection.
<b>CO6</b>	Write the role of time- lag in economics
